Mopeka cloud.		

11. Sensor data will automatically be updated at regular intervals to the cloud. When your phone/tablet are not within blue tooth range of the sensor, the app will retrieve the most recent tank level from the cloud.

For support, please email support@mopeka.com; or call 833-MOPEKA1.

### Indicator lights on Gateway

C	Power; will flash when first plugged in to indicate successful power connection.
1	Sensor Communications; will flash yellow every time the gateway sees communication from sensor.
*	Bluetooth; indicates successful bluetooth communication with phone/smart device used to setup the gateway.
	Cloud; indicates successful communication between Gateway and cloud.
((:•	Wifi; indicates successful connection between Gateway and wifi modem/router.
